

Eastern Hemlock

Tsuga canadensis

Find me at:

- Rome Conservation Area
- Barrel Owl & Hemlock Trail
(Make a loop)

Needles:

- Short / flat
- Arranged in 2 rows
- Blunt tip
- 1/2 inch wide
- Medium green color

Bark:

- Brown / Red
- Scaly in young trees
- Has Ridges and Furrows

Tannin from the bark used to be extracted for use in processing leather.
This is the state tree of Pennsylvania.
